1560 Bluetooth Scanner Wireless Linear Imaging Scanner

Overview

Increase productivity and accelerate workflow with the fast, dependable 1560 BT linear imaging scanner. Delivering a speedy 200 decodes/second, the 1560's 2500-pixel optical scanner reads multiple symbologies in a single tool, ensuring versatility that can meet all of your operational requirements. Need to capture data on the warehouse floor? No problem. The 1560 BT wireless scanners have a 90-meter line-of-sight range from the communication stand. When out of range, switch to batch mode and record over 30,000 scans. CipherLab quality and reliability are backed by a 3-year warranty.
