ABOUT ELEMENT

Element is a technology provider specialising in systems that enable customer service and engagement.

We design and build devices that are used by customers and with customers, wherever they need service. Our mission is to help our clients engage with their customers to increase trust, convenience and loyalty.

We provide 'point of service' devices - for delivering information, assistance and sales transactions wherever the customer needs them.

Our range includes:

- » Point of sale systems - for smooth and efficient 'traditional' purchasing experiences
- » Kiosks - for sales or information
- » Mobile devices - for service without leaving the customer or patient's side
- » And more...

All our products are designed by experts with in-depth experience of how they will be used, and the demands that will be placed on them. That's what makes Element products tough, resilient, designed for purpose, ergonomics and style.

Element products are for retailers, QSRs, cinemas, shopping centres, event venues and healthcare providers who want to take customer service to the next level. Our range is available exclusively through Sektor distribution in Australia, New Zealand, Malaysia and Thailand.

Element takes service to the customer, wherever they need it, through **DESIGN, QUALITY AND PURPOSE.**

THERMAL PRINTERS

ELEMENT RW60 THERMAL RECEIPT PRINTER

Element RW60 3" Thermal Receipt Printer is a compact, easy to use printer ideal for small counter spaces. The flexible design, multiple connectivity options and cutter jam auto-elimination provide convenience and efficiency in the retail & hospitality environments.

PRODUCT FEATURES

- Compact and fashionable design
- Low printing noise
- Cutter jam auto-elimination
- 2" and 3" printing paper width available
- Top/Front paper loading/exit

ELEMENT RW337D DOT MATRIX KITCHEN PRINTER

The Element RW337D Dot Matrix Kitchen Printer is a robust, high performance impact receipt printer that is exceptionally easy to use. Featuring built in power supply, drop-in paper load, auto-cutter and clamshell covers for easy access and maintenance, the RW337D is extremely reliable.

PRODUCT FEATURES

- High print speed: 4.7LPS
- Easy paper loading
- Built-in power supply
- Remove cutter error automatically
- 64K receive buffer
- Anti paper jamming design
- Paper saving function
- Support recording up time history and uploading the history record
- Rich FEED button configuration function
- Support 17 codepages

SCANNERS

ELEMENT P100 2D HAND-HELD BARCODE SCANNER

With its comfortable, ergonomic design and unmatched scanning performance, the Element P100 hand-held scanner offers superior out-of-box experience for scan-intensive applications.

PRODUCT FEATURES

- New generation COMS image sensor
- Intelligent auxiliary aiming and lighting system
- 1.5m drop resistance, IP42 rating
- Comfortable, ergonomic design
- Scans highly-distorted barcodes

ELEMENT P220 2D DESKTOP BARCODE SCANNER

The Element P220 Desktop 2D Omni-directional barcode scanner is a versatile, small form factor barcode scanner optimised for scanning all common 2D barcodes and digital codes from smartphones.

PRODUCT FEATURES

- Solid-state hardware, higher stability and reliability
- Multiple common interfaces, highly compatible
- Independent R&D of core decoding technology
- Induction recognition
- Wide-angle adjustable scanning window

CASH DRAWERS

ELEMENT EC410B CASH DRAWER

Element EC410B is a reliable and compact cash drawer that takes the hassle out of processing cash payments.

PRODUCT FEATURES

- Solid Steel Construction
- 5 Note Holders, 8 Coin Slots - 2 Cheque Slots
- Steel Runners & Derlon Rollers
- 24V Solenoid
- 1.6M Cable
- RJ12 plug (Standard Receipt Printer Connector)
- 410mm (width) x 415mm (depth) x 110mm (height)
- Colour: Black

ELEMENT DT-100U USB TRIGGER FOR CASH DRAWER

The DT-100U Cash Drawer Trigger is designed to provide USB interfacing to the cash drawer. This allows the cash drawer, which was previously connected to POS printer or cash register, to be directly connected to a USB port of the computer. This means that through the DT-100U, the cash drawer can be directly connected to the computer when there is no printer used in the POS system.
