# Existco ExLabel

## Smart Label Design & Printing Software

ExLabel by Existco is a powerful, all-in-one label printing solution designed to streamline your operations. Whether you're printing basic labels or complex formats with variable data, ExLabel makes it effortless.

### Why ExLabel?

- ✔ Professional label creation made easy
- ✔ Seamless data integration
- ✔ Compatible with leading thermal printers
- ✔ No complex licensing—one version does it all

# DESIGNED FOR EFFICIENCY

**Focus on What Matters**

Your business runs on precision and speed. ExLabel is built to support that—removing the complexity from label design so you can focus on your operations.

**Intuitive Interface**

- Drag-and-drop label design
- Real-time preview and editing
- Snap-to-grid layout tools
- In-place text editing with full rotation support

**Data-Driven Printing**

- Connect to SQL databases and ASCII files
- Bind data dynamically at print time
- Use counters, masking, and XML/JSON templates
- Select records interactively during printing
- Real-time clock and date stamping

*Design. Connect. Print. Simplify*
