System Requirements

Operating System supported: Windows 2000, XP, Vista and Windows 7.

Disk Space : Min 160MB (Requires .Net 2.0 or 3.5 Framework)

CPU / Memory : Operating System Minimum Requirements

How It Works

Existco Inspection System is a simple YET powerful tool for every organization.

Information of equipment and inspections are created and updated on host PC. These data then will be transferred onto mobile device via USB (Active-sync) connection.

Barcode labels are printed and placed on equipment's. To perform inspection equipment, simply scan the barcode with mobile device and answer the questions and save to mobile device.

Users also can go back edit entered information if needed.

Once inspection finished, users dock mobile device to its station and perform data synchronization to host PC.

On host PC, users can review and make changes if needed. Reports come in handy with just a few mouse clicks away.

Yes, that is it. Quick and easy.
