# EXISTCO PLANT CONTROL SYSTEM

## TRANSFORM YOUR MEAT OPERATIONS

For over 25 years, ExPCS has empowered Australia's food manufacturers to optimise operations, strengthen compliance, and deliver full end-to-end visibility. Today, meat processors rely on ExPCS to control every stage of production, from livestock receiving and fabrication to packing, inventory, traceability, and dispatch.

### WHY CHOOSE EXPCS?

- ✓ Trusted by leading meat processors
- ✓ Designed for single-site and multi-site meat operations
- ✓ Scalable, flexible, and built for industry compliance

**We solve core meat-industry challenges from livestock traceability and yield optimisation to cold-chain compliance and precise weight-based inventory.**

# SOLVING MEAT PROCESSING CHALLENGES

Running a successful meat processing facility means managing production, compliance, quality, and yield performance. ExPCS is built to help processors thrive by addressing these key needs:

## **End-to-End Traceability & Compliance**

- ✓ Full livestock traceability from receiving through boning, packing, and dispatch
- ✓ Capture NLIS/ear tags, carcass ID, cut mapping, batch numbers, expiry dates, and country of origin
- ✓ Support for SQF, BRC, FSMA, GFSI, and HACCP programs
- ✓ Complete audit trails and digital QA records

## **Yield Control & Waste Reduction**

- ✓ Real-time yield monitoring for carcass, primal, sub-primal, and trim
- ✓ Compare planned vs actual yields and identify losses immediately
- ✓ Production planning tools to reduce giveaway, waste, and rework
- ✓ Automatic costing updates based on weight, labour, and materials

## **Specification & Recipe Confidentiality**

- ✓ Secure control over cutting specs, customer-specific requirements, and processing rules
- ✓ Manage formulations for value-added meat products (marinated, portioned, sausages, etc.)

# SOLVING MEAT PROCESSING CHALLENGES CONT.

## Improved Product Quality & Consistency

- ✓ Standardised cutting instructions and work orders
- ✓ Digital QA checks for temperature, metal detection, pH, sanitation, and CCPs
- ✓ Automated alerts for non-conformance

## Inventory & Cold-Chain Control

- ✓ Real-time inventory by weight, serial, cut type, batch, and storage location
- ✓ Temperature logging, stock rotation, palletisation, and carton tracking
- ✓ Supports fixed, catch-weight, and random-weight products
- ✓ Efficient stocktaking, warehouse transfers, and order fulfilment

## Mobility & Flexibility

- ✓ Native Android and Windows apps for in-plant mobility
- ✓ Rugged mobile devices for cold-room and floor use
- ✓ In-field transactions for receiving, picking, dispatch, QA, and more
- ✓ Offline mode for uninterrupted processing in challenging environments

# EDITIONS & FEATURES FOR EVERY MEAT PROCESSOR

## Choose the Right ExPCS Edition for Your Meat Operation

Whether you're a small processor or a large multi-site facility, ExPCS offers an edition to fit your needs:

### Essential Edition – Ideal for small to medium meat processors

- ✓ Core features for inventory, manufacturing, dispatch, and receiving
- ✓ Supports catch-weight products and basic yield tracking
- ✓ Simple warehouse and production management

### Growth Edition – For mid to large processors

- ✓ Advanced yield analytics and integrated QA
- ✓ Enhanced packaging, labelling, and traceability tools
- ✓ Real-time ERP/accounting integration

### Enterprise Edition – For multi-site processors

- ✓ Multi-establishment support with centralised reporting
- ✓ Advanced production scheduling, custom integrations, and API access
- ✓ Designed for large, high-volume red meat operations

Feature Highlights	Essential	Growth	Enterprise
Production Planning	✓	✓	✓
Carcass & Cut Yield Management	✓	✓	✓
Recipe/Formulation Management	✓	✓	✓
Multi-Site Operation		✓	✓
Advanced QA & Compliance		✓	✓
ERP Integration		✓	✓
Unlimited Hardware			✓

# WHY MEAT PROCESSORS CHOOSE EXPCS?

At Existco, our motto is “**Customers for Life**”—not because you have to stay, but because you’ll want to. We’re committed to delivering continuous value, innovation, and support, making ExPCS the last system your plant will ever need.

“

## Client Testimonial

Existco’s ExPCS platform has been a game-changer for our abattoir and boning room operations. The support from the Existco team has been outstanding. They understand the unique needs of meat processing facilities and have delivered a solution that’s both robust and easy to use. Highly recommended for any abattoir or meat processor looking to modernise and gain full control over their operations!

**Josh V** | *Operations Manager at Avon Valley Beef*
