Record
Keeping**

What is ExPCS Proof of Delivery (POD) ?

ExPCS - Existco Plant Control System delivers a complete POD solution that empowers logistics teams with real-time visibility, accuracy, and operational confidence, while reducing running costs. From mobile devices in the field to a powerful cloud dashboard, ExPCS ensures every delivery is recorded, verified, and traceable.

Mobile POD

Real-Time Capture at Your Fingertips

- ✓ Equip your drivers with rugged, intelligent mobile devices that replace paperwork with instant digital confirmation.

Feature Highlights

-  **Signature Capture** – Collect signatures directly on the mobile screen for seamless digital record-keeping.
-  **Photo Proof** – Attach delivery photos to confirm package condition and drop-off location.
-  **GPS Location Tagging** – Automatically logs precise delivery coordinates for every job.
-  **Time-Stamped Records** – Every delivery includes accurate time and date for audit-ready traceability.
-  **Offline Mode** – Capture POD even in low-signal zones; data syncs once reconnected.
-  **Payment Capture** – Accept EFTPOS, PIN, and PAD payments right at the door.
-  **Google Maps Navigation** – Ensure drivers reach every destination efficiently using integrated mapping.
-  **AI Route Optimisation** – Smart routing powered by Google Routes for reduced travel time and fuel costs.
-  **Driver Notes & Instructions** – Provide essential information like safe access details or alarm codes.
-  **Smart Alerts** – Get notified about prolonged stops, potential incidents, or irregular delivery patterns.

Web Portal

Complete Visibility & Control

- ✓ Your command centre for delivery oversight. Monitor, verify, and report on every delivery from any device.

Portal Capabilities

-  **Live Delivery Tracking** – View real-time delivery status and driver progress across your fleet.
-  **Searchable POD Records** – Instantly find PODs by customer, date, driver, or location.
-  **Export & Reporting Tools** – Produce detailed reports for auditing, customer service, or compliance.
-  **Route Usage Analytics** – Visualise route heatmaps to evaluate efficiency and utilisation.
-  **Secure Cloud Storage** – All POD information is encrypted, backed up, and available when needed.
-  **Integration-Ready** – Connect seamlessly with ERP, CRM, and other logistics systems.
-  **Customer Notifications** – Send automatic POD confirmations via email or optional SMS.

Why Businesses Choose ExPCS POD

ExPCS doesn't just simplify deliveries – it transforms them.

- Reduce disputes and claims with clear, undeniable proof
- Increase customer satisfaction through transparency
- Improve internal accountability and fleet performance
- Eliminate paper forms and manual handling
- Enable fast, data-driven decision making at every level
