What is ExPCS Wholesale Web Ordering?

ExPCS - Existco Plant Control System delivers a powerful, branded wholesale ordering platform that allows customers to place accurate orders 24/7 - while you retain full control over products, pricing, approvals, and delivery rules. From web browsers to native mobile apps, ExPCS Wholesale Ordering streamlines order capture, reduces errors, and connects seamlessly into your production and distribution workflows.

Core Features

Order Anywhere, Anytime

ExPCS Wholesale Ordering is available as:

- A secure web ordering portal
- Native iOS mobile app
- Native Android mobile app

Customers can place orders from desktop, tablet, or mobile – with a consistent, intuitive experience across all platforms.

Designed for Fast, Accurate Ordering

Customers can:

- Create new orders or repeat past orders
- Order from customer-specific templates
- Search and filter products by category
- Add quantities, notes, and delivery instructions
- Save orders as drafts or submit instantly

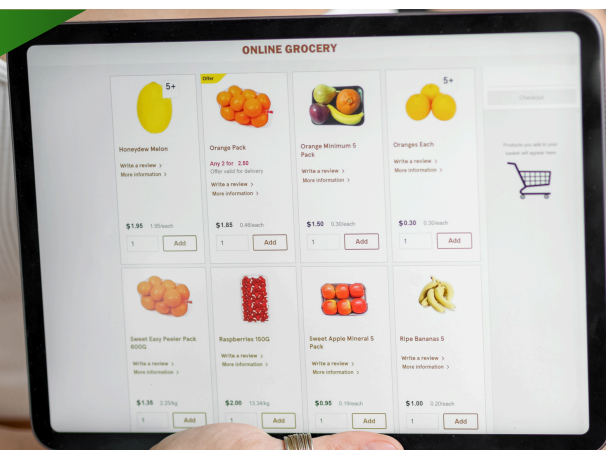

Automatic cut-off enforcement ensures customers can only select valid delivery dates.

Complete Product Visibility

Products can display:

- Product images
- Nutrition panels
- Ingredients
- Allergen information
- Country of origin

Supporting compliance, transparency, and confidence in every order.

Core Features

Customer-Specific Rules & Restrictions

ExPCS allows full control over what each customer can see and order:

- Customer-specific product ranges
- Limited product variability by customer
- Prices shown or hidden as required
- Managed customer order templates

This ensures customers only order approved products, in approved formats, every time.

Smart Delivery & Approval Controls

- Control cut-off times for next-day delivery
- Control delivery days per customer
- Automatic public holiday loading by state
- Optional internal order approval before production

Orders follow your business rules automatically – reducing errors and rework.

Fully Integrated with ExPCS

- Fully integrated with the ExPCS (SMS) application
- Automatic product and price syncing
- No double handling or re-keying

Orders flow directly into production, inventory, and reporting.

Why Choose ExPCS?

Payments, Freight & Communication

- ✓ Online payment at order submission
- ✓ Freight charge calculator
- ✓ Email notifications when orders are placed
- ✓ Global and customer-specific messaging

Clear communication without the manual follow-up.

Advanced Reporting & Insights

Powerful internal reporting by:

- ✓ Customer
- ✓ Sales representative
- ✓ Product

Gain visibility into ordering behaviour, customer performance, and product demand.

Why Food Manufacturers Choose ExPCS?

- Reduce manual order processing
- Minimise errors and disputes
- Improve customer experience
- Enforce compliance and delivery rules
- Scale without complexity

ExPCS doesn't just digitise ordering, it transforms wholesale operations.
