FRESHO

AI Order Capture. Fully Integrated into ExPCS.

ExPCS has partnered with Fresho to bring you OrderPilot, an AI-powered tool that captures customer orders and feeds clean, accurate data directly into ExPCS.

Automatically convert orders from:

- ✓ Emails
- ✓ PDFs
- ✓ Text messages
- ✓ Voicemails
- ✓ Purchase Orders

**No portal changes. No disruption.
Just smarter order processing.**

Still dealing with this?

Orders coming in from multiple channels

Manual rekeying into ERP/production systems

Staff tied up entering orders line-by-line

Errors creeping into production and dispatch

Teams struggling to scale operations

Customers unwilling to adopt new ordering portals

The Solution: ExPCS + OrderPilot

AI automatically captures and structures your order data — then pushes it directly into **ExPCS workflows**.

- No more manual data entry
 - No more missed details
 - No change required from your customers
 - Full visibility across orders and operations
-

The Impact

- ✓ Save 6 hours per 200 orders
- ✓ Reduce costly manual errors
- ✓ Reduce order processing from **2–3 minutes** → **10–20 seconds**
- ✓ Reallocate staff to higher-value tasks
- ✓ Scale operations without increasing headcount

How It Works

One Inbox

All orders (email, PDF, text, voicemail, PO) flow into a single system.

AI Captures Data

Line items, quantities, and instructions extracted automatically.

Originals Attached

Every order source remains visible and traceable.

Human Review

Your team reviews exceptions before submission.

FRESHO

Seamless Integration with ExPCS

OrderPilot integrates directly into ExPCS, allowing you to:

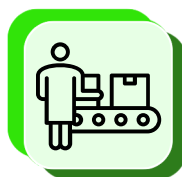

Automatically generate
accurate sales/production
orders

Maintain full traceability and
compliance

Improve production planning
and efficiency

Eliminate bottlenecks
between order entry and the
factory floor

Real Outcome

Instead of manually processing emails, PDFs, and calls, businesses are now **automating order capture and focusing on customers and growth.**
