Obvios® New Kiosk

PRODUCT DESCRIPTION

The rugged and sleek design of the New Kiosk is a perfect fit for any application. The self service kiosk features a high spec with the ideal blend of aesthetics and functionality. With options for an integrated printer, scanner, card reader and wireless 802.11b; it will suit any application including retail, banking, education, hospitality and many more.

The unit has been designed with a specific need in mind, a self service terminal that has countless features, rugged construction utilising tough die cast aluminium casing, and a lustrous design to fit in our continually changing store fronts. With its versatile technology you can be assured that the kiosk is positioned well to stand the test of time and technology.
