SOFTWARE SOLUTIONS

Are you tired of losing control of your inventory & wasting your time trying to manage it?

Roshtek Inventory Manager

V.1.0

Roshtek Inventory Manager is industry-leading Inventory tracking solution for small to medium-sized businesses. Roshtek has perfected an all in one solution to solve the Inventory management needs of Retail, Wholesale, Mining, General Trades, Government and Educational agencies, Healthcare, and small to large companies across the globe. Roshtek Inventory Manager is capable of meeting the high demands of your business while still remaining simple enough to master right out of the box!

Roshtek Inventory Manager keeps the levels at multi locations of your valuable Inventory at your fingertips, preventing you from having to search for inventory levels, ordering information, or performing stock takes too often. In addition, detailed information on each inventory, including Cost, Multiple Sell Value, Location, serialisation, and even department it is currently in, order on suppliers based on reorder information, update inventory levels when goods arrive, Issue inventory to jobs, and perform stock takes is all part of the system.

Roshtek Inventory Manager also stores the transaction history of the inventory, so you know when and which person performed goods received, issue to job, stock take, disposal, raise order on suppliers based on re-order information, and many other operations.

Roshtek Inventory Manager even gives you the power to easily audit your inventory to ensure 100% accuracy. If you're currently using a spreadsheet, pen and paper, or are currently unhappy with your existing Inventory tracking package, Roshtek Inventory Manager will help your organization save time and money while better utilizing of company inventory.

Roshtek Inventory Manager is the perfect Inventory management solution when you need the flexibility and freedom of a mobile device. Often, managing company inventory while sitting in front of a computer is not possible or efficient. With a mobile device, you can take Roshtek Inventory Manager to your warehouse locations, whether there in a different room, different building, or out in the field.

► Manage Inventory Levels

► Know your Stock Locations

► Issue Inventory to Jobs

Know exactly what inventory you have, where they are located and track its usage and costing!
