

## Industrial Antenna

|                           |                          |  |
|---------------------------|--------------------------|--|
| Description:              | Industrial antenna       |  |
| Frequency:                | 125 kHz                  |  |
| Reader:                   | TPB-31..34,TPF-31..34    |  |
| Read distance:            | Up to 250 mm             |  |
| Housing:                  | Polyurethane IP 66 Black |  |
| Dimensions:               | 185x 185 x 20 mm         |  |
| Temperature:              | -20°C....+50°C           |  |
| Technical certifications: | CE                       |  |
|                           |                          |  |
| Special:                  | Air coil antenna         |  |
|                           |                          |  |
| Part number:              | TPA-31-23                |  |
