

MobileInventory SPT 1800 Combo Pack

MobileInventory Combo Pack

Track Your Inventory with the Symbol SPT 1800

This portable inventory control solution allows you to track your inventory on an existing computer and perform cycle counts quickly and accurately using the SPT 1800 data collector. The kit includes Wasp MobileInventory PDA inventory control software, and a Symbol SPT1800 Palm unit with built-in laser scanner. HotSync cable, cable, battery pack, and power supply included.

Part Number: 633808344108

Features

Fast and Easy to Use

Getting around is simple using MobileInventory's user-friendly navigation. Wizard driven data import/export feature interfaces with external files and applications.

Efficient and Flexible

Enter your data via Graffiti® or handheld keyboard. Scan your data into MobileInventory for fast, error-free input using Symbol's™ SPT 1800 Palm unit with integrated barcode scanner.

Access Information Instantly

Quickly search for critical data using WaspTrack's advanced find capability. Over 30+ pre-built reports provide the insight you need.

Customize Forms

Easily change the appearance and content of your forms. No programming is required.

COMPLETE CONTENTS OF THE COMBO PACK

Desktop Features

- Efficiently manage physical inventory
- Check-in/Check-out inventory items
- Track your inventory by item location, purchase order, supplier, serial number, lot, pallet and date code
- Effortlessly manage location information for each item
- Customize your forms to present only the information that's important to your business
